

What Is Home Connect?

Bring Home the Excitement!

Students can now view their daily progress in reading and math at any time simply by accessing Home Connect from any computer with Internet access. Students can also find new books to read, score Accelerated Math assignments, and practice with MathFacts in a Flash. Parents and guardians can share the joy of learning with their children by seeing how they're doing, helping them find new books, or helping them choose appropriate math facts to practice.

Home Connect is available to Accelerated Reader Enterprise and Accelerated Math Enterprise customers. Listed below are the student features of Home Connect. Specific availability for your students depends on which programs your school has purchased.

Accelerated Reader

- View goals, results of the last quiz taken, and overall progress
- Find books that have Accelerated Reader quizzes
- View My Bookshelf which shows the books on which quizzes have been taken

Accelerated Math

- View results of recently scored assignments and overall progress
- Reprint current practice and exercise assignments
- Score current practice and exercise assignments (feature can be disabled by teacher)
- Print next practice assignment (unless scoring feature has been disabled)

MathFacts in a Flash

- Practice or test at any level, regardless of assigned level at school
- View results of work completed at school or at home
- Test at the default goal of 40 correct within 2 minutes (must retest at school to master the level)

Email Notifications

Parent or guardians may specify up to six email addresses to receive updates of student progress via email. The recipient must accept the invitation for the notifications to begin. Emails will be sent automatically by the program and will contain results of any Accelerated Reader quizzes or Accelerated Math tests the student completes. If the student uses MathFacts in a Flash, an email will be sent each time a new level is completed.
